

Answer to CSI: Orlando

All the murderers and victims are famous Disney characters. There are ten movies referenced, each providing a victim and a murderer.

It's possible to identify most of the victims from their outlines alone. To identify the murderers is a little trickier. First, the crime scene notes contain clues about the killers, and secondly the photos in the bottom right are rebuses of the killers' names.

Unfortunately, the murderer and a victim from a given crime scene are not from the same movie. In order to recreate the "crime ring" you must identify the killer from a given scene and then link it to the victim that is from the same movie (but from a different crime!). This will create a circle of murders, which leads you all the way back to the beginning.

For example, in the first crime scene (as indicated by the detective's handwriting, we have the outline of Genie from Aladdin. He was murdered by Bo Peep (BOW + PEEP) from Toy Story. This means that the next victim is going to be from Toy Story and sure enough Buzz Lightyear is one of the victims, and so on.

Here is the full crime ring:

GENIE	BO PEEP (BOW + PEEP)
BUZZ LIGHTYEAR	CHESHIRE CAT (CHESS + SHARK + AT)
MAD HATTER	GEPETTO (CHIP + PET + TOE)
PINOCCHIO	SEBASTIAN (SUB + ASS + CHIN)
ARIEL	FRIAR TUCK (FRYER + TUCK)
ROBIN HOOD	DOPEY (DOUGH + PEE)
SNOW WHITE AND 6 DWARFS	WINNIE THE POOH (WHEN + HEATH (Ledger) + APU)
PIGLET	NEMO (KNEE + MOE)
DORY	TINKERBELL (TIN + CURB + EL (train))
CAPTAIN HOOK	JAFAR (JEFF (Bridges) + ARRRRR!)

To get the final answer, you need to notice that each of the crime scene notes contains a number. If you index into the killer's name using that number, you'll get the message BIG BAD WOLF, which is the dastardly mastermind of these gruesome deaths.
