The answers to the above clues are all USA cities. Using the postal codes of the state that each city is located in connect the dots from one "island" to another "island." These cities represented are the biggest cities in the USA with that given name. The codes used are NE, NC, OH, PA, TN, FL, CO, TX, and IN. When that is finished the lines will cross through letters that read from left to right, top to bottom: "NOW READ EVERY OTHER LETTER LEFT". Following this instruction reveals "LOWRY BOOK WITH JONAS." Fitting this with the instruction/flavor text means that the overall answer is "GIVER."
