

# Distribution

Serif Web Concepts and Design has helped the kids set up a website to sell lemonade stand kits, and now they have to deliver the kits to their customers' cabins. Find the shortest route to make all of the deliveries and get back home. **Left turns and U-turns are not permitted, even where no right turn is possible.** Measure each segment of the route.

## Town Map

### Legend:

- Road
- Bridge (no turns)
-  Your home
-  Customer
