

P7: Mass Production

For this puzzle, we need to find word pairs that link. From the loading docks, each word forms the first part of a word pair on another page which links to another word and continues this pattern until it reaches the lemonade page. Note that for any three chains starting on the same side, they will always link to three words on the same side. The 9 chains are the following:

- GRAND → CHILD → BIRTH → DAY → LIGHT → HOUSE → HOLD → FAST → BALL → ROOM
- YEAR → BOOK → CASE → WORK → BENCH → MARKS → MAN → HANDLE → BAR → FLY
- SOUND → STAGE → HAND → BAG → PIPE → LINE → UP → SHOT → GUN → POINT
- PINE → APPLE → SAUCE → PAN → CAKE → WALK → OUT → CRY → BABY → SIT
- TURN → TABLE → TOP → SIDE → STEP → MOTHER → LAND → SCAPE → GOAT → SKIN
- BUTTER → MILK → SHAKE → DOWN → PLAY → GROUND → HOG → TIE → PIN → CUSHION
- LADY → FINGER → NAIL → BRUSH → FIRE → ARM → BAND → SAW → HORSE → RADISH
- CROSS → OVER → NIGHT → STAND → OFF → KEY → NOTE → PAD → LOCK → JAW
- PHOTO → COPY → CAT → FISH → TAIL → BONE → HEAD → LONG → BOW → STRING

Tracing through the paths on the pages, you will see the following (these are experienced track pictures, but close enough):

In the flavor text, it talked about raised vats. This is a clue to use braille on the vats. If you count the circles that have used pipes going through them, the resulting braille letters spell **AUTOMATE**.
